

City of Greensboro and
NC A&T State University Alumni Association, Inc.
2006 A&T Homecoming Vendor Pavilion

Vendor Guidelines

Below are the guidelines of requirements for the Pavilion. A brief summary follows:

- ☑ All vendors are required to have a fire extinguisher which carries a minimum of a **2A-10B** rating. Food vendors using cooking oil are strongly encouraged to have a **Class K** fire extinguisher. Residential extinguishers are not acceptable for the Pavilion use.
- ☑ **Tents and canopies must be flame treated.** The Fire Department will require a sewn in label on the fabric or the manufacturers' certification of flame treatment or the label from the product used to treat the material. Vendors should be prepared to furnish a sample piece of material.
- ☑ **No LP tanks will be permitted inside a cooking operation.** LP tanks should be secured in an area outside the cooking tent or trailer. Plastic soda or milk crates provide good stability for the tanks.
- ☑ The electricity and water will again be provided for your use at the Pavilion. **Please bring a minimum of a 100' drop cord with a gauge of 12/3 that has a grounding pin or wire.** If you have multiple appliances, you should supply a drop cord for each appliance.
- ☑ Water **hoses should be food grade**, and at least 50' in length.
- ☑ Please remember to bring **cinder blocks and twine** to tie down tents. Stakes are not recommended to be placed in the paved lot.
- ☑ Due to fire code restrictions, the spaces between units may not be used for seating or storage areas. These are to remain open air areas.

Food Vendors:

Please contact the Guilford County Environmental Department at (336) 641-7777 or visit their website at www.gheh.org. There is a link to "Special Events" on the right side of the page. Contact them as soon as possible to start the approval process. **A privilege license cannot be issued until you have been pre-approved by Guilford County.**
